Occupation: Realtor/ Entrepreneur

Position applied for: Councillor

Which Ward are you running for: Ward 3

Why are you running for City Council:

Brandon is my hometown, and standing up for the people who live here is a privilege I don't take lightly.

I've been a West End kid since I was 12. I was raised here, built my career here, and now my wife Kelsey and I are raising our kids here too. This city has given me a lot, and I want to help build a Brandon where families see opportunity, growth, and a future worth staying for.

For over 25 years from behind my barber chair, I've heard my neighbours share their frustrations, hopes, and ideas for Brandon completely unfiltered.

Back then, those conversations ended in the shop. Now I'm stepping forward to take those same concerns to City Hall and turn talk into action.

After nearly four decades in the West End and years working as a local Realtor and entrepreneur, I understand what matters to our community: safety, accountability, honest communication, and protecting the value of our neighbourhoods. Brandon needs someone who will champion its residents, market our city to industry, and support local businesses and entrepreneurs.

I'm running because I believe in transparency, practical solutions, and real answers. I want to stand up for Ward 3 with integrity, listen to residents, and help make decisions that move Brandon forward.
