POSITION APPLIED FOR: City Councillor, Ward 2

Why I am running for City Council

I am running for Brandon City Council in Ward 2 because I believe our community deserves strong, experienced and accessible representation—leadership that listens to residents, works collaboratively and gets things done.

Having previously served on Brandon City Council, I understand both the opportunities and responsibilities that come with representing our community. My experience in housing, community development and public service has strengthened my commitment to building a safer, more vibrant and inclusive Brandon.

I currently serve on the Brandon University Board of Governors and the Grow Brandon Housing Committee, and I previously served on the Brandon Downtown Development Corporation Board. These experiences have given me a broad understanding of the challenges and opportunities facing Ward 2 and our city.

My priorities include strengthening neighbourhood and downtown safety, supporting responsible development and housing, investing in infrastructure, supporting community centres and local businesses, and ensuring residents have a strong voice at City Hall.

I am ready to bring experience, collaboration and a community-first approach back to Council and work with residents to build a stronger Ward 2 and a stronger Brandon—together.
