The financial implications of this agreement must be considered when assessing the organization's overall budget position.

As we enter the final quarter of 2026, continued emphasis will be placed on prudent fiscal management, ongoing monitoring or expenditures, and ensuring budget allocations remain aligned with operational priorities and financial objectives. The current projected surplus will be subject to further review and discussion with the Board of Police Commissioners to ensure a comprehensive understanding of the organization's financial position and any anticipated year end obligations.

PRINCE ALBERT POLICE SERVICE
Board Report

TITLE: **2027 Board Reporting Framework & Schedule**

DATE: **November 11, 2026**

TO: **Board of Police Commissioners**

PUBLIC ☒ **IN-CAMERA ☐**

RECOMMENDATION

That the Board of Police Commissioners endorse the proposed 2027 reporting framework and schedule (Appendix A), recognizing that reports, briefings or decisions may also be brought forward outside the established calendar whenever required to support effective governance and oversight.

TOPIC & PURPOSE

To establish a predictable and proportionate reporting schedule for 2027 that provides the Board with meaningful information on police service performance, strategic priorities, financial stewardship and matters affecting public confidence.

PROPOSED APPROACH & RATIONALE

The reporting framework introduced in earlier years was intended to move beyond high-volume, repetitive submissions toward reporting that is more relevant to the Board's oversight responsibilities. The proposed 2027 schedule continues that approach by aligning reports with year-end results, quarterly performance measures, significant initiatives and key financial decision points.

Reports are being provided to identify notable trends, material variances, emerging risks, progress against strategic objectives and any matters requiring Board direction or decision. This maintains accountability without unnecessarily duplicating routine operational information.

The calendar retains regular public reporting on crime statistics, strategic-plan progress, financial results and specialized activities. It also introduces scheduled updates on the Complex Needs Facility and Mobile Complex Needs Initiative. Professional Standards will be addressed through a public year-end overview and, where warranted, a separate in-camera discussion of information requiring confidentiality.

TRANSPARENCY & FLEXIBILITY

Public reporting remains the default wherever appropriate; proposed in-camera items will be assessed according to the nature of the information and applicable confidentiality requirements. The schedule is a planning tool rather than a restriction on information to the Board. Significant developments, emerging risks and matters requiring timely consideration will continue to be reported as they arise.
