RE: Road Rehabilitation 29th Street East (Unit Block) – Project Update

Dear Residents,

The City of Prince Albert would like to provide an update regarding the planned road rehabilitation project for your street.

After careful consideration of available options, the City has decided to postpone this project until the Spring 2027 construction season.

Completing the work in conjunction with another roadway rehabilitation project next year will allow the City to provide a higher quality finished roadway and the best possible long-term result for residents.

In the meantime, the roadway will continue to be maintained to ensure it remains safe and serviceable. Additional inspections will be completed in the spring, and efforts will be made to maintain proper surface drainage until the rehabilitation work is undertaken. Any areas of ponding or localized surface deterioration will be addressed as required.

Residents will receive additional notice prior to construction commencing in Spring 2027, including information regarding the anticipated schedule and any impacts to access or traffic.

We appreciate your patience and understanding as we work to improve this roadway. We look forward to completing this project and providing a quality driving surface for residents in Spring 2027.

Sincerely,

Digitally signed by Evan Hastings
