City of Portage la Prairie Strategic Plan – Top 5 Initiatives

Quality of Life

We will continue to connect and build upon the strategic investments of the past that have created a community of excellent cultural & recreational activities while ensuring we provide opportunities to grow and enhance housing in our community.

Community Safety and Well-being

We recognize that it takes an entire community working together to improve the safety and well-being of all residents. This Council is committed to working in collaboration with our partners to continue to improve and support the well-being of our citizens. Community safety is ultimately about helping communities to be, and feel, safe.

Showcasing our Community

We believe that community beautification and tourism-focused investments contribute to civic pride and make for a more livable community. Our goal is to share our story about the quality of life we enjoy here in Portage la Prairie.

Economic Opportunity

We will build upon our accessible and diverse transportation infrastructure, ample quality water and soil, existing innovative industries and labour pool, and exceptional quality of life amenities to grow our region's economy and population in a sound and sustainable, but robust manner.

Inclusive and Informed Community

We cherish how diversity brings appreciation, understanding, and energy to our region, but we also value how the friendships, bonds, and partnerships we build as we learn from each other help us find new solutions and identify new opportunities that we could not find or achieve alone. We forge renewed strength as we walk this path together.
