Important Considerations

Would you like to provide authorization for other family members to be buried in your plot? As prescribed by legislation, no person shall be interred without written permission from the rights holder. If you would like to authorize a burial in your plot, we can assist at the time of need, or pre-authorize future burials.

Consider including provisions for the future ownership rights of your plot in your will. Ownership does not automatically transfer in most cases.

Take extra measures to preserve your certificate of rights as it will be needed for future burials, transfers, or resale back to the Township.
