362120 Concession 16 Georgian Bluffs

To the Committee of Adjustment

The reason for my application is to build a detached floating slab garage(24'x24') in the front yard of my property of 1 acre on a rural lot. The proposed location does not interfere with any lot drainage or protected lands and is not less than 40ft to any property line. I have 2 boys that are into racing and need some space to properly store their cars and use for miscellaneous storage. The reason I am looking to build in the front of my house is that it the most practical area on my property for the construction.

Thank you for your time and consideration

Alex Beckmann
