

# Vaccines: Flu and COVID-19

## Is it safe for you to have the flu and COVID-19 vaccines?

- \* Most patients having cancer treatment(s) can safely have these vaccines.
- \* Ask your oncologist if these vaccines are safe for you.

## Where can you get the vaccines?

- \* At a local pharmacy.
- \* For more information on where you can get your vaccines, go to [ontario.ca/vaccine-locations](https://ontario.ca/vaccine-locations).

**It is important your family members and friends get their vaccines too!**
