Ride-Share Safety Tips

1. Check the driver and car.
    - Before you get in, check the licence plate, car type, and driver's name.
    - Ask, "Who are you picking up?" Do not say your name first.
    - Do not get into a car that does not match the ride-share app.
2. Choose a bright, safe place to be picked up.

    A clear pick-up spot helps you find the right car. It also makes it easier to check the driver's information.
    - Wait in bright areas.
    - Stay away from alleys, quiet side streets, and dark parking lots.
    - If you can, wait near cameras, security staff, or police.
3. Do not ride alone if you feel unsafe.
    - Travel with a friend if you can, especially at night.
    - If you get separated, stay in a safe place. Do not walk around or take a ride alone.
4. Use the safety tools in the ride-share app.
    - Share your trip with someone you trust.
    - Use the emergency button in the app if you need help.
    - Make sure the route looks right to you.
5. Trust yourself. Cancel or leave the ride if you need to.
    - If something feels wrong, leave the ride in a safe, public place.
    - If you are not sure, cancel the ride or get out before it starts.
    - Report unsafe behaviour in the app. Call 911 if you are in danger.
