

Tanner McNabb

Ward C / Ward 3

Township Councillor Candidate

MUSKOKA
LAKES VOTES

OCTOBER 26, 2026

About

Tanner McNabb was born and raised in Muskoka and grew up on a farm in Windermere, where he learned the value of hard work, responsibility, and helping his neighbours.

Tanner and his wife are both from Muskoka, and with their first child on the way, they are committed to raising their family and building their future here.

Tanner owns and operates two local businesses, Muskoka Lakes Excavation and Barging Bros. Through his work in excavation, barging, construction, and shoreline projects, he works directly with homeowners, contractors, businesses, cottagers, and year-round residents throughout Muskoka.

Community involvement is important to Tanner. He is a member of the Port Carling Fire Department, sits on the board of the Port Carling Legion, and volunteers grooming local snowmobile trails that help support winter tourism and local businesses.

Tanner is running for council to bring a younger, practical, common-sense perspective to the table. His priorities include protecting local fire services, maintaining roads and infrastructure, improving the permitting process, protecting Muskoka's lakes and shorelines, and advocating for better flooding and water management.

Tanner believes Muskoka can move forward without losing what makes it special. He supports responsible development, strong environmental protections, practical decision-making, and listening to both year-round and seasonal residents.

His goal is simple: keep Muskoka, Muskoka; while building a stronger community for the next generation.
