

Pam Jeffery

Ward C / Ward 3

Township Councillor Candidate

MUSKOKA
LAKE VOTES

OCTOBER 26, 2026

About

I am a 5th generation Minett and feel a deep connection to Muskoka-home for almost 160 years. My great-great grandparents Charles and Fanny Minett built Cleveland's House.

I bring a 40+ year track record of working inside government at the highest levels to the Council table. Council must advocate for our community, working with the provincial and federal governments who hold the cards to achieve our goals. I will listen and will represent you through my platform priorities:

- environment first
- responsible development
- job creation and attainable housing
- flooding and fire risk mitigation as our climate changes and our population grows

A track record of finding solutions to the toughest challenges will help me serve you. Born and raised in London, Ontario, I enjoyed a successful career in public service, community building and advocacy. I moved to Toronto (my adopted hometown) after graduating with my HBA and MBA at the Ivey Business School.

My career began at Queen's Park in the Minister's Office at Industry, Trade and Technology, followed by 20 years in government relations helping executives navigate Queen's Park and Parliament Hill. I served as the Ontario Communications Advisor to Prime Minister Martin (2004 Federal Election) and helped the late Ken Dryden transition to politics! I went on to create the Women's Executive Network, a community of 22,000 women and serve as CEO for 17 years. I am a community builder, having served on 13 volunteer boards including CAMH, the Stratford Festival and Trent University.
