

Mitchell Shea

Ward B / Ward 2

Township Councillor Candidate

MUSKOKA
LAKES VOTES

OCTOBER 26, 2026

About

I am a lifelong resident of Muskoka, born and raised on the family farm that has been worked by my family since the 1800s.

Growing up here has given me deep roots in the community and a strong appreciation for our area and the people in it.

For the past fourteen years, I have been a small business owner, farmer, and active member of the local agricultural community. I have focused on reclaiming forgotten farmland around Windermere, bringing land back into productive use and preserving our agricultural heritage.

I am also a proud father to a one year old son. I am excited to watch him grow up in this beautiful area and carry forward the traditions, values, and connection to the land passed down through generations.

Community involvement has always been important to me. During the winter months, I sponsor approximately 15 local children, ages four to fifteen, who participate in snowmobile racing. I build practice tracks for them and attend CSRA races on weekends to support the kids and their families. I believe strongly in giving young people opportunities to develop skills and build confidence.

I am interested in running for council because I believe I can bring a different perspective and unique experiences to the table. My background in farming, small business, and community involvement has given me experience solving problems and understanding local challenges.

I hope to bring new ideas, a willingness to listen, and practical solutions while helping build a strong future for our community.
