STAFF REPORT TO COUNCIL

Report No: CS-2026-14

May 25, 2026

From: Stephanie MacRae – Director of Community Services

RE: Island Park Clean-Up

Recommended Motion:

THAT the Council of the Township of North Glengarry receive Staff Report No. CS 2026-14: Island Park Clean up; and

THAT Council support initiatives to improve the condition, safety, and appearance of Island Park and Fireman's Island by:

- Authorizing the removal of a storage shed at Island Park that has reached the end of its useful life;
- Supporting the reorganization of recreation equipment storage utilizing space at the former Alexandria Garage on Tobin Street; and
- Authorizing the removal of the existing gazebo on Fireman's Island at Mill Pond and supporting the re-establishment of boardwalk connectivity and the creation of a more open and visible area to enhance public access.

Background / Analysis:

Island Park is a prominent and heavily used community space in Alexandria. Over time, some of the supporting infrastructure within this area has aged beyond its intended lifespan, while changing operational needs have resulted in storage challenges in certain areas.

At Island Park, two storage sheds are currently present. One of these structures has nearly reached the end of its useful life and no longer provides an effective or appropriate storage solution. Its limited capacity has contributed to excess equipment being stored outdoors, negatively impacting the park's overall appearance.

Separately, Fireman's Island at Mill Pond contains a gazebo structure that has become increasingly difficult to monitor due to its enclosed design and limited sightlines, raising concerns related to visibility and public safety. Despite there currently being no immediate foot access to

the island, it is not uncommon for individuals to access the island via boat, canoe or by swimming, where incidents of petty crime, arson and other undesirable acts have been reported to occur.

In the interest of enhancing the overall appearance of Fireman's Island and ensuring proper maintenance of grass, staff are proposing that the gazebo be removed, and boardwalks be re-connected to this area of the park, to encourage safe, visible and lawful enjoyment of the island.

Each of the proposed recommendations aligns with Crime Prevention Through Environmental Design (CPTED) principles by increasing natural surveillance, improving sightlines, and promoting safer, more comfortable public use of the area.

If Council is supportive of these efforts, staff will begin to navigate costs associated to the decommissioning of the shed and gazebo, in addition to seeking out replacement pieces needed for the boardwalk to expand to the Fireman's Island. While staff suspect much of this work can be completed within the existing operating budget, some elements of this work may be delayed until the next budget cycle in the event it is cost prohibitive.

Alternatives:

Option 1 – Recommended – That Council approves this resolution

Or

Option 2 – Not recommended – That Council does not approve this resolution

Financial Implications:

Costs associated with shed and gazebo demolition are expected to be modest and manageable within existing operational or facilities budgets, subject to Council approval. Areas of the existing boardwalk may require additional funds to replace and/or expand the length of the structure to reach Fireman's Island.

STAFF REPORT TO COUNCIL

Report No: CS-2026-15

May 25, 2026

From: Stephanie MacRae, Director of Community Services

RE: 2026 Ice Start-Up Dates

Recommended Motion:

THAT Council receives staff report CS-2026-15: 2026 Ice Start-Up Dates for information purposes; and,

THAT Council approves the start-up date at the Glengarry Sports Palace of September 12, 2026 and September 26, 2026 at the Maxville & District Sports Complex.

Background / Analysis:

The process of installing ice at the Glengarry Sports Palace (GSP) and Maxville & District Sports Complex (MSC) from beginning to end, takes approximately 14 days for staff to complete at each respective arena. The timing of the start-up process for the ice installation must be considered in alignment with user demand, availability of resources, as well as operating costs.

Staff are recommending an ice start-up date of September 12th, 2026, for the GSP, followed by a start-up date of September 26th for the MSC. Staff have launched the 2026-2027 Ice Request process, and based on current incoming ice requests, along with consultations completed with major use groups, staff feel the recommended dates align with the demand and offer reasonable start dates without incurring irresponsible start-up costs.

It should be noted that recent trends of prolonged summer temperatures into September have made early ice installation increasingly challenging. For this reason, the mid-September start-up dates at both arenas, as opposed to earlier start dates, will help mitigate the risk of inefficient ice formation and excessive energy consumption due to higher temperatures that are prominent in late August and early September.

The proposed installation dates reflect a balanced approach that considers community needs, operational realities, and environmental factors.

Alternatives:

Option 1 – Recommended – That Council approves this resolution.

Or

Option 2 – Not recommended – That Council does not approve this resolution.

Financial Implications:

Any staffing and operating costs associated to the proposed start-up dates at the arenas are in alignment with the Council-approved 2026 Budget.

STAFF REPORT TO COUNCIL

Report No: CS-2026-16

May 25, 2026

From: Stephanie MacRae, Director of Community Services

RE: Awarding of the Glengarry Sports Palace Dehumidifier Replacement Contract

Recommended Motion:

THAT Council receives staff report CS-2026-16: Awarding of the Glengarry Sports Palace Dehumidifier Replacement Contract; and,

THAT Council approve the awarding of the Glengarry Sports Palace dehumidifier supply and installation contract to CIMCO Refrigeration, through the Canoe Procurement Group of Canada cooperative purchasing program; and

THAT Council authorizes staff to proceed with the procurement and implementation of the dehumidifier replacement project in accordance with the approved budget.

Background / Analysis:

During the 2026 Capital budget discussions, staff advised Council that one of the two dehumidifier units at the Glengarry Sports Palace (GSP) required replacement, having reached end of its useful lifecycle. The dehumidifier is a critical infrastructure component needed to maintain the ice quality, prevent condensation and structural damage, and ensures user comfort and safety.

The Township of North Glengarry currently has an existing service agreement in place with CIMCO, who is responsible for providing ongoing maintenance and technical support for the refrigeration systems at both arenas, inclusive of both existing dehumidifiers at the GSP. This has been effective for standardizing service providers, as well as maintaining familiarity and technical expertise for any maintenance issues.

For this reason, staff have received pricing from CIMCO for the dehumidifier replacement through the Canoe Procurement Group of Canada, a cooperative purchasing program that enables municipalities to procure goods and services through pre-qualified vendors. CIMCO has quoted the replacement at \$53,147.98 + HST, which aligns with the \$60,000 capital amount allocated to this project for 2026.

Awarding this contract to CIMCO Refrigeration through the Canoe Procurement Group:

- Aligns with the Township's procurement policy
- Leverages an existing, trusted service provider
- Supports standardization and operational efficiency
- Reduces risk and long-term maintenance complexity

As such, staff recommend that Council approve the awarding of the dehumidifier replacement contract to CIMCO Refrigeration in the amount of \$53,147.98 + HST.

Alternatives:

Option 1 – Recommended – That Council approves this resolution.

Or

Option 2 – Not recommended – That Council does not approve this resolution.

Financial Implications:

During the 2026 Township of North Glengarry budget exercise, Council had approved the GSP Dehumidifier Replacement as a capital project, in the amount of \$60,000. The quote received by CIMCO is in the amount of \$53,147.98 + HST. As such, this quote is within the Council-approved cost for this project.

INNOVATORS IN REFRIGERATION AND COOLING TECHNOLOGIES

Desicon “ET” EcoTechnology Electric Desiccant Dehumidifier

**Today's most environmentally-friendly
dehumidifying system**

TOROMONT

CIMCO

Introducing... Desicon *ET*

Today the effects of greenhouse gases on our environment combined with the current, increasing gas rates are the cause of serious concern for all ice rink owners and operators.

CIMCO's new electrically powered desiccant dehumidifier, Desicon *ET*, is designed to be a "green" alternative to existing systems.

Features include:

- electric regeneration requiring no gas or propane burner, so no greenhouse gas emissions
- no refrigerants required
- no drainlines requiring heat tracing
- re-uses existing Humicon platforms and wiring
- no compressor, refrigerant coils or defrosting system required, reducing maintenance
- enhanced moisture removal

Desicon *ET* Desiccant Dehumidifier is ideal for smaller recreational, practice and curling rinks. The system is engineered to mimic the physical and power consumption profiles of typical mechanical refrigeration dehumidifiers, making it an excellent replacement system. Desicon *ET* provides considerably more drying capacity with minimal retrofit cost. It delivers 2600 scfm of dry air and runs on less than 16 amps of electricity at 600 volts. Its deep grain depression makes it the best choice for moisture control in ice surface venues.

Report No: FD 2026-03

From: Matthew Roy – Fire Chief

RE: Automatic Aid Agreement – Specialized Rescue Services with the City of Ottawa

Recommended Motion:

THAT Council of the Township of North Glengarry receive Report FD-2026-03: regarding the proposed Automatic Aid Agreement for Specialized Rescue Services between the Township of North Glengarry and the City of Ottawa; and

FURTHER THAT Council approves By-law 30-2026 being a by-law to authorize the Mayor and Clerk to execute the Automatic Aid Agreement between the Township of North Glengarry and the City of Ottawa for the provision of Specialized Rescue Services.

AND THAT by-law 30-2026 be read a first, second and third time and enacted in open Council this the 25th day of May, 2026

Background / Analysis:

The purpose of this report is to seek Council approval for an Automatic Aid Agreement between the Township of North Glengarry and the City of Ottawa for the provision of specialized technical rescue services within the Township of North Glengarry.

The North Glengarry Fire Department (NGFD) provides fire protection services through a volunteer-based model operating from three stations. While the department maintains emergency response capabilities for fire suppression, rescue, medical response, and public safety incidents, specialized technical rescue disciplines require advanced technician-level training, specialized rescue apparatus, dedicated equipment, and significant ongoing certification requirements that are not practical to maintain internally within a rural volunteer fire service model.

The proposed agreement establishes a formal Automatic Aid Program whereby Ottawa Fire Services (OFS) will respond to incidents within North Glengarry requiring technical rescue capabilities beyond the operational scope of NGFD. The agreement outlines response

procedures, command responsibilities, financial obligations, insurance requirements, and service expectations between both municipalities for specialized rescue incidents.

Under the agreement, Ottawa Fire Services will provide the following specialized rescue disciplines when requested by North Glengarry:

- Technical Rope Rescue
- Confined Space Rescue
- Water/Ice Rescue
- Trench Rescue
- Grain Bin/Silo Rescue
- Machinery Rescue

Specialized rescue incidents are generally low-frequency but high-risk emergencies requiring specialized personnel, advanced rescue systems, and dedicated apparatus to safely mitigate hazards and rescue victims.

North Glengarry's agricultural base, industrial occupancies, rural infrastructure, waterways, and transportation corridors present a realistic community risk profile for these types of incidents. While infrequent, such emergencies can present significant hazards to victims, responders, and the public if appropriate technical rescue resources are not immediately available.

As a volunteer fire department, North Glengarry does not maintain an internal technical rescue team nor the specialized rescue equipment and certification program required to sustain these disciplines in-house. Establishing an internal capability would require substantial investment in specialized apparatus, rescue equipment, technician-level training, recurring certification maintenance, and staffing capacity, resulting in significant financial pressures for a low-frequency service demand.

While North Glengarry does not currently maintain technician-level specialized rescue capabilities in areas such as trench rescue, confined space rescue, rope rescue, grain bin/silo rescue, or machinery rescue, the Department intends to continue developing and maintaining technician-level water and ice rescue capabilities consistent with the Township's community risk profile, local waterways, seasonal hazards, and operational service delivery objectives. North Glengarry recognizes the importance of maintaining internal water and ice rescue competency to support immediate response needs within the municipality. Ottawa Fire Services specialized rescue resources would supplement North Glengarry's technician-level capability during complex, prolonged, large-scale, or resource-intensive water and ice rescue incidents where additional specialized personnel, equipment, or operational support may be required. This agreement therefore strengthens and enhances North Glengarry's emergency response capability while supporting the Department's continued development of internal technical rescue competencies.

The proposed agreement provides a practical, regional, and fiscally responsible solution by allowing North Glengarry access to an established technical rescue team through Ottawa Fire Services. This model provides immediate access to specialized personnel, equipment, and command resources while avoiding the financial burden of developing and maintaining a full in-house technical rescue capability.

The agreement also establishes clear incident command expectations. Upon request through dispatch, Ottawa Fire Services will respond with the appropriate specialized rescue resources, subject to operational availability. Incident Command will initially be established by the first arriving fire service, with North Glengarry assuming command upon arrival and coordinating jointly with Ottawa specialized rescue personnel to maintain an effective unified command structure.

The agreement is specific to specialized rescue services and does not include routine fire suppression or normal emergency response operations. Structural collapse rescue, Urban Search and Rescue (USAR), and hazardous materials/CBRNE incidents would continue to be accessed through provincial emergency coordination systems when required.

Approval of this agreement will significantly strengthen emergency response capacity within North Glengarry by providing access to specialized rescue services that would otherwise not be reasonably available within the Township, improving firefighter safety, public protection, and overall municipal emergency preparedness.

Municipalities are authorized to enter into agreements respecting fire protection and emergency services under the provisions of the Ontario Fire Protection and Prevention Act, 1997. The agreement term is for an initial period of three (3) years, with automatic renewal unless terminated by either party with notice in accordance with the agreement provisions.

Alternatives:

Option 1 – approve the Automatic Aid Agreement

Option 2 (not recommended) – do not approve the agreement.

Financial Implications:

The agreement is based on a fee-for-service model, meaning there is no annual retainer fee or standing financial obligation to North Glengarry. Costs are only incurred when specialized rescue resources are requested and deployed to an incident within the Township.

Response costs are established through the City of Ottawa's Fire Service Fee By-law and updated annually.

SCHEDULE A

Specialized Rescue Services

Response of Ottawa Fire Services (“OFS”) specialized rescue services to an emergency under this Agreement is subject to the availability of the requested resources and in-service at the time of the request.

OFS may experience a delayed response to allow the callback of additional resources to supply the requested specialized rescue services to an emergency if the OFS personnel, apparatus, or equipment are already committed within the City of Ottawa or under another agreement. Similarly, if the OFS is responding to an emergency outside of Ottawa and a call is received that requires OFS to respond within Ottawa, the Ottawa Fire Chief may order the return of such personnel, apparatus, or equipment that is responding to or is at the scene of an emergency outside of Ottawa.

In the event it is necessary for OFS to exercise their rights under this Agreement, the Ottawa Fire Chief will immediately notify the incident command via the Ottawa Communication Centre or face to face with incident command that they are not responding or that they are leaving the scene.

OFS has a number of built-in redundancies and a robust continuity of operation plan in place therefore the application of the two paragraphs above would only be under extraordinary circumstances.

Specialized Rescue Services covered by this Agreement are as follows:

- Technical Rope Rescue
- Confined Space Rescue
- Water/Ice Rescue
- Trench Rescue
- Grain Bin/Silo Rescue
- Machinery Rescue

Specialized Rescue Services **not** covered by this Agreement but accessible through the Provincial Emergency Operations Centre and OFS are as follows:

- Structural Collapse Rescue
- USAR (Urban Search and Rescue) Responses
- Hazardous Materials/CBRNE Incidents

Note: Accessing provincially covered resources is done through your local Fire Coordinator and the PEOC (1-866-314-0472).

OFS will provide to North Glengarry the annual updated version to Schedule "B" of By-law No. 2020-195 entitled "A by-law of the City of Ottawa to establish certain fees and charges for Ottawa Fire Services," as amended.

STAFF REPORT TO COUNCIL

Report No: FD 2026-04

May 25, 2026

From: Matthew Roy – Fire Chief

RE: Appointment to Act in the Capacity of Deputy Fire Coordinator – United Counties of Stormont, Dundas and Glengarry (SDG)

Recommended Motion:

THAT Council of the Township of North Glengarry receive report No. FD-2026-04: Appointment to Act in the Capacity of Deputy Fire Coordinator-United Counties of SDG for information purposes;

FURTHER that Council approve Fire Chief Matthew Roy to act in the capacity of Deputy Fire Coordinator under the provisions of the Fire Protection and Prevention Act, 1997 for the United Counties of Stormont, Dundas and Glengarry (SDG).

Background / Analysis:

The Counties of Stormont, Dundas and Glengarry (SDG) maintain a regional fire coordination structure pursuant to the provisions of the Fire Protection and Prevention Act, 1997 (FPPA), which provides for the appointment of a Fire Coordinator and Deputy Fire Coordinators to support emergency management, inter-municipal fire service coordination, provincial liaison functions, and regional fire service collaboration.

The role of Deputy Fire Coordinator is intended to provide support to the County Fire Coordinator and participating municipalities in matters including, but not limited to:

- Fire service coordination and regional collaboration;
- Assistance during large-scale or complex emergency incidents requiring inter-municipal cooperation;
- Liaison with provincial agencies, including the Office of the Fire Marshal;
- Support for mutual aid, specialized rescue coordination, and emergency planning initiatives;
- Participation in regional fire service meetings, planning activities, and operational coordination.

The SDG Fire Coordinator has requested that Fire Chief Matthew Roy act in the capacity of Deputy Fire Coordinator. This appointment would serve in a support and coordination role for

the County and participating municipalities and would not alter the Fire Chief's reporting relationship to North Glengarry Council or administration.

Participation in this role provides an opportunity for North Glengarry to maintain representation and leadership at the regional level, while supporting collaborative emergency preparedness and response initiatives across the SDG region. It also ensures North Glengarry remains actively engaged in regional fire service planning, specialized rescue coordination, mutual aid discussions, and emerging legislative or operational considerations impacting municipal fire services.

The appointment is not anticipated to create a significant operational impact on the North Glengarry Fire Department. Any duties undertaken in the Deputy Fire Coordinator capacity would be managed in conjunction with existing Fire Chief responsibilities and coordinated to avoid disruption to departmental service delivery.

As this appointment extends beyond the municipality and relates to regional representation under the FPPA, Council approval is being sought to ensure transparency and formal municipal acknowledgement of the role.

Alternatives:

Option 1 – approve the appointment

Option 2 (not recommended) – do not approve the appointment.

Financial Implications:

There are no anticipated direct financial impacts to the Township associated with this appointment. Any minor administrative or travel-related costs associated with attendance at regional meetings would be accommodated within the approved Fire Department operating budget, where applicable.

March 10, 2026

Dear Senator,

Re: Rideau Lakes Concerns re Alto High Speed Rail Project (Bill C-15 Budget)

We in Rideau Lakes Township are writing this letter because of major concerns about the Alto High Speed Rail Project (HSR), as well as a request to fully evaluate our concerns of Bill C-15 in relation to Alto HSR and expropriation of land.

The Alto HSR is lacking full and meaningful consultation of critical information for the early design and development phase. We recognize that having this information is important to the engineers in determining routes that minimize disruptions to the communities, residents, businesses, farmland, waterways, environment, and ecosystems that they pass through. What we have experienced is less than adequate information upon which to base our ability to conduct impact assessments involving our rural communities, agriculture, businesses, and countless heritage buildings and monuments. Alto's recently proposed Southern Ontario route included a 10 km wide corridor, and they provided high-level maps which are not useful in determining the impacts which more detailed route maps would give us and that are vital to our informed feedback. Without more information from Alto, this reduces our more local and valuable ability to provide critical information to Alto planners and engineers.

HSR will divide communities. There will be a major impact on our roadways for school buses, public transportation and emergency vehicles given the many closed roadways when fences are erected along the HSR route. This will increase mortality and morbidity as it will take longer to receive timely care. Farther to travel will also increase emissions and costs for plowing and road maintenance. Without more information from Alto, this reduces our local and valuable ability to provide critical information to Alto planners and engineers.

The Southern route would traverse the UNESCO recognized Frontenac Arch Biosphere Region, the ancestral lands of the Haudenosaunee (Kanien'kehá:ka) and Anishinaabeg (Algonquin); where a land bridge of the Canadian Shield connects the Algonquin and Laurentian Highlands to the Adirondack Mountains in the USA. Many animals use this migration route in both directions every year, and unless wildlife corridors are included in the ALTO plans, this would cut off their migration.

This does not begin to speak to the negative impact on tourism which is estimated in the order of \$30 million for the UNESCO Rideau Canal system from Ottawa to Kingston.

Another major concern is that the government proposes to grant Alto, as a Crown Corporation, the right to 3 methods of property expropriation! Until now the government itself held the right to a single method of property expropriation. This causes our residents varying degrees of stress ranging to mental anguish if their properties are affected and they will not get full current market value if they decided to sell. Under the new proposed legislation, they would be forced to sell to the Corporation! This is of particular concern to many potentially affected property owners who are in the business of farming and feeding our population.

Cost analysis to build the railway in the northern and southern routes has not been done. We have also been told that a route parallel to the St. Lawrence River and Lake Ontario is not viable. We do not have enough information to understand why this option is not viable.

Rideau Lakes Township is asking you, and your Senate colleagues, to undertake your considered review of our concerns that are being sent to you for First Reading. We hope that you will see that this portion of Bill-C15 (HSR and expropriation) is premature, given that there are many unanswered questions and important issues have not been adequately addressed in the information provided. There has been inadequate public consultation to move to the development stage of this generationally important Canadian transportation project affecting so many lives along whatever corridor may eventually be approved. Should the Senate determine that a delegation to a Senate committee be appropriate with a view to consolidating recommendations for changes that would go back to the House of Commons, we would be available to participate, of course upon invitation.

Thank you for your attention in this very important matter affecting all of us here and across Ontario! It would be very much appreciated if I could receive a response in order to brief my Council.

Yours respectfully,

Title: Protecting Students – School Bus Stop-Arm Camera

Date: April 20, 2026

Item No. 12.1

WHEREAS the safety of children travelling to and from school is a fundamental priority for the Town of Halton Hills;

AND WHEREAS illegal passing of stopped school buses continues to occur in Ontario, placing children at serious and preventable risk;

AND WHEREAS stop-arm camera systems improve driver compliance, support enforcement, and enhance accountability through reliable video evidence;

AND WHEREAS the Town of Halton Hills has consistently advocated for stronger school bus safety measures, including Council support in 2017 for a pilot initiative with Halton Regional Police to collect data on stop-arm violations, a March 25, 2019 resolution supporting the continued placement of school bus cameras, and a July 10, 2023 resolution, calling for provincial action to require stop-arm cameras on school buses and fund their implementation;

AND WHEREAS despite this longstanding advocacy, illegal passing of stopped school buses remains a persistent safety concern, demonstrating the need for stronger and more consistent province-wide action;

AND WHEREAS municipalities and school boards require modern enforcement tools, clear provincial rules, and equitable access to safety technology in order to protect students in communities of all sizes;

NOW THEREFORE BE IT RESOLVED THAT Council of the Town of Halton Hills reaffirms its longstanding support for enhanced school bus safety measures, including stop-arm camera systems;

AND FURTHER THAT Council reiterates and strengthens its previous requests to the Province of Ontario to take decisive action on this matter;

AND FURTHER THAT the Province of Ontario be requested to:

- a. mandate the installation of stop-arm camera systems on all school buses operating in Ontario;
- b. provide full or substantial funding support, together with a standardized provincial implementation framework, to enable municipalities and school boards to deploy this technology effectively and consistently; and
- c. fully implement and standardize enforcement mechanisms, including the administrative monetary penalty framework and related regulations, to support compliance and effective enforcement across Ontario;

AND FURTHER THAT staff be directed to forward a copy of this resolution to the Premier of Ontario, the Minister of Transportation, MPP Joseph Racinsky, the Association of Municipalities of Ontario, local school boards, and all Ontario municipalities for their consideration and support.

Resolution No.: 2026-0071

Title: Request for review of Provincial-Municipal Fiscal Framework

Date: April 20, 2026

Moved by: Councillor J. Brass

Seconded by: Councillor C. Somerville

Item No. 12.2

WHEREAS municipalities, including the Town of Halton Hills, play a critical role in delivering essential services and infrastructure that support growing and evolving communities;

AND WHEREAS municipalities are increasingly contributing to areas that intersect with provincial responsibilities, such as housing, social services, and certain capital obligations, placing additional pressure on property tax-based revenue systems;

AND WHEREAS municipal revenue tools, particularly property taxes, are limited in their ability to keep pace with growth, inflation, and the expanding expectations placed on local governments;

AND WHEREAS the Town of Halton Hills continues to invest in critical infrastructure, including roads, water, stormwater, emergency services, and recreation, to support both existing residents and future growth;

AND WHEREAS the Association of Municipalities of Ontario and the Federation of Canadian Municipalities have identified opportunities to better align municipal funding tools with the realities of modern service delivery and growth pressures;

AND WHEREAS ensuring long-term financial sustainability for municipalities is essential to maintaining service levels, supporting housing targets, and protecting affordability for residents;

NOW THEREFORE BE IT RESOLVED THAT Council of the Town of Halton Hills respectfully requests that the Province of Ontario, in collaboration with AMO, FCM and other municipal partners, undertake a comprehensive review of the provincial-municipal fiscal framework, with a view to strengthening long-term sustainability and alignment of responsibilities;

AND FURTHER THAT this review considers opportunities to:

- o better align funding responsibilities with service delivery expectations;
- o explore sustainable, growth-related revenue tools that reflect the demands placed on municipalities; and
- o support a funding framework that enables municipalities to accommodate growth while protecting affordability for residents;

AND FURTHER THAT the Province be encouraged to continue working collaboratively with municipalities to ensure that funding frameworks become responsive to community needs and evolving growth pressures;

Memorandum

To: Mayor Jamie MacDonald, Council, CAO Michael Fawthrop
From: John Mesman, Managing Director, Property, Conservation Lands, and Community Outreach
Date: April 29, 2026
RE: **Summer Water Levels and Seasonal Conservation Area Reopening**

With warmer temperatures and the spring freshet completed along the South Nation River, South Nation Conservation (SNC) has transitioned to spring operations. Seasonal water levels have been set, and safety and debris booms will be installed over the next two weeks at water control structures in Chesterville, Crysler, Russell, Casselman, and Plantagenet.

In preparation for the reopening of seasonal Conservation Areas, docks will be installed and gates will be unlocked at the following boat launches in May:

- High Falls and Doran Park Conservation Areas (Casselman)
- St. Albert Conservation Area (St. Albert)
- Crysler Park Boat Launch (Crysler)
- Embrun Boat Launch (Embrun)
- Cass Bridge Conservation Area (Winchester)
- Jessup's Falls Conservation Area (Plantagenet)
- Chesterville Waterfront Docks and Boat Launch (Chesterville)
- Spencerville Mill Riverside Park and Boat Launch (Spencerville)

Additionally, the following seasonal sites without docks will reopen:

- Oak Valley Pioneer Park Conservation Area (Winchester Springs)
- McIntosh Memorial Park Conservation Area (Berwick)
- Findlay Creek Boardwalk Conservation Area (Ottawa)
- Mill Run Conservation Area (Augusta)

Portable washrooms will be installed in all of SNC's Conservation Areas in May, including those that are maintained year-round, like the Warwick Forest (Berwick), Robert Graham Forest (Brinston), Oschmann Forest (Ormond), Two Creeks Forest (Morrisburg), Reveler (Berwick), W.E. Burton and J. Henry Tweed (Russell) and Nokomis Park (Limoges).

South Nation
Conservation
de la Nation Sud

SNC reminds anglers that it is unsafe and illegal to fish within 23 metres of a dam. Fish congregate in these areas and fishing prevents many species from spawning, which pose significant risks to fish populations. Residents are encouraged to use safe and appropriate locations away from water control structures.

Thank you for your continued partnership and for your support in providing natural spaces and recreational opportunities for residents and visitors to enjoy.

Objet : **Niveaux d'eau en été et réouverture saisonnière des aires
de conservation**

Avec le réchauffement des températures et la fin de la crue printanière de la rivière Nation Sud, la CNS est passée en mode opérationnel printanier. Les niveaux d'eau saisonniers ont été atteints, donc les barrières de sécurité et les barrages à débris seront installés au cours des deux prochaines semaines aux installations de contrôle des eaux de Chesterville, Crysler, Russell, Casselman et Plantagenet.

En vue de la réouverture des aires de conservation saisonnières, des quais seront installés et les barrières seront déverrouillées en mai aux rampes de mise à l'eau suivantes :

- Aire de conservation High Falls et du parc Doran (Casselman)
- Aire de conservation de St. Albert (St. Albert)
- Rampe de mise à l'eau du parc Crysler (Crysler)
- Rampe de mise à l'eau d'Embrun (Embrun)
- Aire de conservation du pont Cass (Winchester)
- Aire de conservation de Jessup's Falls (Plantagenet)
- Quais et rampe de mise à l'eau du secteur riverain de Chesterville (Chesterville)
- Parc riverain et rampe de mise à l'eau du Moulin de Spencerville (Spencerville)

Par ailleurs, les sites saisonniers suivants, dépourvus de quais, rouvriront leurs portes :

- Aire de conservation Oak Valley Pioneer Park (Winchester Springs)
- Aire de conservation du parc commémoratif McIntosh (Berwick)
- Passerelle de Findlay Creek (Ottawa)
- Aire de conservation Mill Run (Augusta)

Des toilettes mobiles seront installées en mai dans toutes les aires de conservation de la CNS, y compris celles qui sont entretenues toute l'année, telles que l'aire de conservation de la Forêt Warwick (Berwick), l'aire de conservation de la Forêt Robert Graham (Brinston), de la Forêt Oschmann (Ormond), de même que les forêts Two Creeks (Morrisburg), Reveler (Berwick), W.E. Burton et J. Henry Tweed (Russell), ainsi que le parc Nokomis (Limoges).

South Nation
Conservation
de la Nation Sud

La CNS rappelle aux pêcheurs qu'il est dangereux et illégal de pêcher à moins de 23 mètres d'un barrage. Les poissons se rassemblent dans ces zones et la pêche empêche de nombreuses espèces de se reproduire, ce qui entraîne des risques importants sur les populations de poissons. Les résidents sont invités à privilégier des emplacements sûrs et appropriés, loin des ouvrages de régulation des eaux.

Nous vous remercions de votre collaboration continue et de votre soutien permettant d'offrir des espaces naturels et des possibilités de loisirs dont peuvent profiter les résidents et les visiteurs.

REGULAR COUNCIL MEETING

RESOLUTION

Tuesday, May 5, 2026

Resolution # RC26092	Meeting Order: 8
Moved by: [REDACTED]	Seconded by: [REDACTED]

WHEREAS housing affordability remains a critical issue in Ontario and across Canada, with the national average home sale price at approximately \$675,000, making homeownership increasingly difficult for first-time buyers; and

WHEREAS under the current Ontario Land Transfer Tax regime, first-time home buyers may receive a rebate of up to \$4,000 toward provincial land transfer tax, which fully offsets the tax only on homes valued up to approximately \$368,000, a level substantially below the current average home price; and

WHEREAS at a home purchase price of \$675,000 the provincial land transfer tax before any rebate can exceed \$8,000, meaning that even with the current maximum \$4,000 rebate first time buyers must pay a significant tax burden at closing that undermines housing affordability; and

WHEREAS the Council of the Corporation of the Municipality of Wawa acknowledges and applauds recent efforts by the Province of Ontario and the Government of Canada to improve housing affordability, including measures to reduce or rebate GST/HST on new housing construction and purchases; and

WHEREAS the vast majority of residential real estate transactions in Ontario, including both resale and new homes, are subject to provincial Land Transfer Tax, meaning that enhancements to the Land Transfer Tax rebate would provide broader and more immediate financial relief to first-time homebuyers.

NOW THEREFORE BE IT RESOLVED THAT the Council of the Corporation of the Municipality of Wawa formally requests that the Province of Ontario consider amending the Land Transfer Tax Act to:

The Corporation of the Municipality of Wawa

REGULAR COUNCIL MEETING

RESOLUTION

1. Increase the value threshold at which the first-time home buyer rebate fully offsets provincial Land Transfer Tax to a level that reflects current housing market realities (for example, to no less than \$675,000, aligning with the 2025 national average home price); and
2. Increase the maximum rebate amount available to first time home buyers accordingly (such as to a minimum of \$8,000, or a proportional figure tied to the new threshold) to meaningfully reduce upfront tax costs for first-time purchasers.

BE IT FURTHER RESOLVED THAT such amendments be designed to enhance housing affordability and access to homeownership for first-time buyers in urban, suburban, and rural communities alike; and

BE IT FURTHER RESOLVED THAT a copy of this resolution be forwarded to the Premier of Ontario, the minister of Finance, the Minister of Municipal Affairs and Housing, the local Member of Provincial Parliament, all Ontario municipalities of Ontario (AMO) for consideration and advocacy.

Whereas the Province of Ontario has implemented the Blue Box Extended Producer Responsibility (EPR) framework, transferring responsibility for municipal recycling to producer responsibility organizations and their contractors, including Circular Materials Ontario;

And Whereas Circular Materials Ontario has engaged multiple private collection contractors to deliver recycling services to municipalities across Ontario, including those within the Regional Municipality of York;

And Whereas municipalities throughout Ontario are experiencing inconsistent recycling collection service levels under the new EPR model, including differences in collection frequency, missed collections, accepted materials, cart provision, contamination management, customer service response times, and contractor accountability;

And Whereas residents in some municipalities are receiving reduced or inferior recycling collection services compared to others, despite participating in the same provincial Blue Box program;

And Whereas these service level inequities have resulted in increased resident complaints, confusion, reduced participation in recycling programs, and declining public confidence in Ontario's recycling system;

And Whereas upper- and lower-tier municipalities, including York Region, no longer have direct operational control over Blue Box recycling collection, yet continue to experience the impacts of service disruptions and resident dissatisfaction;

And Whereas the intent of Extended Producer Responsibility was to improve environmental outcomes, efficiency, and accountability, not to create unequal treatment of Ontario residents based on municipal boundaries;

And Whereas access to reliable and effective recycling collection is an essential public service and should be fair, consistent, and equitable for all residents of Ontario, regardless of where they live;

Therefore Be It Resolved That the Council of The Regional Municipality of York calls upon the Province of Ontario to intervene to ensure that Circular Materials Ontario and its contractors provide fair, consistent, and equitable

recycling collection service levels across all municipalities in Ontario;

And That the Province be requested to establish, enforce, and publicly report on consistent province-wide service standards for Blue Box recycling, including collection frequency, missed-collection recovery, accepted materials, cart provision, customer service response times, and contractor performance;

And That the Province require Circular Materials Ontario to promptly address collection service level inequities and performance gaps between municipalities, including those impacting York Region;

And That this resolution be circulated to the Premier of Ontario, the Minister of the Environment, Conservation and Parks, all Ontario Members of Provincial Parliament, the Association of Municipalities of Ontario (AMO), and Circular Materials Ontario and all Mayors of Ontario.

"BE IT RESOLVED THAT the Municipality of Huron Shores supports the request of the Town of Northeastern Manitoulin and the Islands that the Ministry of the Environment reconsider the use of lighter-grade oils for chip-and-tar surface treatment, or develop a suitable alternative, in recognition of the reduced durability and increased maintenance costs experienced by municipalities;

AND THAT a copy of this resolution be forwarded to the Ministry of the Environment, the Association of Municipalities of Ontario (AMO), the Federation of Northern Ontario Municipalities (FONOM), Good Roads, the local MPP, and all Ontario municipalities for their awareness and support."

Resolution No. 75-03-2026

Moved by: B. Wood

Seconded by: P. Aelick

Whereas the Town of Northeastern Manitoulin and the Islands, like many municipalities, utilizes chip-and-tar surface treatment on a significant portion of its road network; and

Whereas the Town has observed a substantial decrease in the length of time these treated roads remain in acceptable condition; and

Whereas the quality and durability of the oil used in the surface treatment appears to be a contributing factor; and

Whereas the Ministry of the Environment amended its regulations several years ago, permitting only lighter-grade oils for environmental considerations; and

Whereas the reduced durability of the lighter-grade product has resulted in more frequent resurfacing cycles and has consequently led to increasing maintenance costs;

Now therefore be it resolved that the Town of Northeastern Manitoulin and the Islands respectfully requests that the Ministry of the Environment reconsider its decision regarding the lighter grade of oil, taking into account the increased number of applications required, as well as the associated additional time, energy, and financial burden placed on municipalities or develops a better alternative oil.

And Further that this motion be forwarded to the Ministry of Environment, AMO, Good Roads, FONOM, MPP Bill Rosenberg, and all other municipalities.

RESOLUTION NO: 096-2026

SECONDED BY: M. Myatt

DATE: March 23, 2026

Whereas older buildings have inherent sustainability and provide economic, environmental and social benefits for Ontario communities; and,

Whereas re-use of existing buildings reduces the need for increased infrastructure that accompanies new builds such as sewer and water services, new roads and sidewalks; and,

Whereas re-use of existing building can reduce construction waste and extend the life expectancy of landfills; and,

Whereas keeping older buildings helps a community remain visually richer and enhances identity while building its tourism brand and appeal; and,

Whereas creating a new, application-based, matching grant program of \$10M/year, modelled on an existing Alberta program would incentivize owners and smaller developers to keep, fix and reuse heritage buildings to create new housing; and,

Whereas such a grant program would provide an alternative to the Ontario heritage property tax relief program, which has limited impact on developers and reduces municipal revenues; and,

Whereas such a grant program would provide a simpler and more direct way for heritage building owners to fund renovations or conservation; and,

Whereas Ontario developers surveyed by the National Trust for Canada in 2014 ranked a heritage-revolving fund as their top incentive to encourage heritage development if:

- the grants are simple to apply for and to administer; and,
- the fund is large enough to meet at least 33% of the demand so that applicants have a reasonable chance of recovering the cost and effort of applying.

Therefore, be it Resolved That the Council of the Town of Saugeen Shores endorse the Architectural Conservancy of Ontario (ACO) Proposal to include \$10M per year in the 2026 provincial budget for Heritage Helping Housing (HHH) grant funding, and that this resolution be sent to the Premier, Minister of Finance, Minister of Citizenship and Multiculturalism, and MPP Lisa Thompson, and be circulated to all municipalities in Ontario.

Re: Request for Provincial School Board Governance Consultation Process

Dear Premier Ford and Minister Calandra,

On behalf of the Board of Trustees of the Durham District School Board, I am writing to request that a province-wide consultation process take place before making any governance changes or decisions that would result in the elimination of school board trustees.

The potential elimination of trustees is concerning and represents a significant shift in Ontario's education governance. Trustees serve as a longstanding, essential democratic link between local communities and the public education system. Any change of this magnitude should not be considered without seeking input through evidence-based research and meaningful public engagement.

It is essential that communities have an opportunity to fully understand and respond to the implications of a proposal that would remove school board trustees, which may have unintended negative consequences on the communities that we are elected to serve. We understand you have recently heard from a number of other boards across the province, and we strongly agree with the statement from our colleagues at Avon Maitland DSB that *"transparency regarding the rationale, objectives, and anticipated outcomes of this proposal is essential to maintaining public trust and ensuring informed dialogue."*

Durham Region includes diverse, urban, suburban, and rural communities, all with vastly varying histories and needs. Local representation ensures the unique needs of each of our communities are considered and met. As a Board of Trustees, we are firmly and proudly

committed to promoting meaningful learning, connected communities, and well-being, being responsive to the priorities of the local community in carrying out our duties and responsibilities.

In parallel to this letter, we are also writing to the Ombudsman's Office to request an immediate review of the potential impacts of removing school board trustees with respect to fairness, openness, transparency, and accountability.

We thank you for your immediate attention to this important matter.

Sincerely,

Tracy Brown

RE: Resolution Passed by Woolwich Township Council – Request to the Province of Ontario
to Extend the Deadline for Notices of Intention to Designate Listed Heritage Properties

This letter is to inform you that the Council of the Township of Woolwich passed the following resolution at their meeting held on April 28, 2026:

That the Council of the Township of Woolwich, considering a resolution passed by the Town of Lincoln regarding extending the deadlines for notices of intention to designate listed heritage properties, endorse the resolution:

WHEREAS amendments to the Ontario Heritage Act under the More Homes Built Faster Act, 2022 introduced timelines requiring municipalities to issue Notices of Intention to Designate for properties listed on municipal heritage registers as of December 31, 2022, originally requiring action by January 1, 2025; and

WHEREAS the Province subsequently amended the legislation through the Homeowner Protection Act, 2024 to extend the deadline to January 1, 2027 in response to concerns raised by municipalities and heritage stakeholders; and

WHEREAS municipalities require sufficient time and resources to undertake research, documentation, consultation, and evaluation to determine whether listed properties warrant designation under the Ontario Heritage Act; and

WHEREAS the removal of listed properties from municipal heritage registers if the prescribed timelines are not met may place cultural heritage resources at increased risk of demolition or irreversible alteration before municipalities have the opportunity to properly evaluate their cultural heritage value or interest; and

WHEREAS many municipalities, including the Town of Lincoln, do not have dedicated heritage planning staff and must rely on volunteer Heritage Advisory Committee members or external heritage consultants to undertake property evaluations, which can result in additional financial and administrative pressures; and

WHEREAS municipalities across Ontario are facing significant workloads associated with evaluating listed properties; and

WHEREAS the Town of Lincoln Heritage Advisory Committee, at its meeting of March 12, 2026, recommended that Council advocate to the Province of Ontario for a further extension to the current deadline;

NOW THEREFORE BE IT RESOLVED THAT:

1. The Council of the Town of Lincoln endorse the recommendation of its Heritage Advisory Committee and respectfully request that the Province of Ontario further amend the Ontario Heritage Act to extend the January 1, 2027 deadline for issuing Notices of Intention to Designate for properties listed on municipal heritage registers as of December 31, 2022; and
2. The Province consider extending the deadline to January 1, 2030, or another reasonable timeframe that would provide municipalities with adequate time to complete heritage evaluations and make informed designation decisions; and
3. This resolution be circulated to the Minister of Citizenship and Multiculturalism, the Minister of Municipal Affairs and Housing, the local Member of Provincial Parliament, the Association of Municipalities of Ontario, the Ontario Municipal Heritage Committee Association, and all Ontario municipalities for their information and consideration.

SHORELINE CONDITIONS STATEMENT

FLOOD OUTLOOK – St. Lawrence River

May 7th, 2026

A Flood Outlook Statement is being issued for areas along the St. Lawrence River shoreline in the South Nation Conservation jurisdiction.

Environmental Conditions:

Persistent precipitation this spring has resulted in rising water levels throughout the Great Lakes-St. Lawrence River basin. If near-average water supplies are received in the basin in the upcoming weeks, the International Lake Ontario-St. Lawrence River Board (ILOSLRB) forecasts that Lake Ontario levels may reach a seasonal peak between 75.40 m and 75.50 m in May or June. This seasonal peak is approximately 0.3 m to 0.5 m below the record highs of 2017 and 2019.

The ILOSLRB is closely monitoring conditions and frequently adjusting Lake Ontario outflows in accordance with Regulation Plan 2014.

Risks:

Levels in Lake Ontario influence levels in the upper St. Lawrence River, including areas along the shoreline in Maitland, Johnstown and Cardinal.

Water levels further downstream in the St. Lawrence River system will likely increase and remain at above average conditions for several weeks.

Although wide-spread flooding is not anticipated, municipalities and residents should be aware of higher-than-normal water levels and the potential for localized flooding in low-lying areas.

Residents are advised that strong winds may cause waves, further increasing water levels.

ACTION: Residents are advised to exercise extreme caution when near rivers and waterbodies due to increasing water levels and slippery conditions. Parents are encouraged to explain these dangers to their children.

Residents in flood prone or low-lying areas, historically susceptible to flooding, should take the necessary precautions to protect their property. Please ensure:

- Sump pump is clear, in good working condition and has a backwater valve on it.
- Easy access to portable backup generator and pump.
- Downspouts are clear and the outlet is at least 3 m from the dwelling.
- Driveway culverts are clear of debris and drain well.
- Securing items that might float away as flows increase.

COMMUNIQUÉ SUR LES CONDITIONS DES RIVES RISQUE DE CRUE – Fleuve Saint-Laurent

7 mai 2026

Une déclaration de risque de crue est émise pour les secteurs situés le long des rives du fleuve Saint-Laurent, dans les limites du territoire de la Conservation de la Nation Sud.

Conditions environnementales :

Les précipitations persistantes de ce printemps ont entraîné une élévation des niveaux d'eau dans l'ensemble du bassin des Grands Lacs et du fleuve Saint-Laurent. Si le bassin reçoit des apports d'eau proches de la moyenne au cours des prochaines semaines, le Conseil international du lac Ontario et du fleuve Saint-Laurent (CILOFSL) prévoit que le niveau du lac Ontario pourrait atteindre un pic saisonnier compris entre 75,40 m et 75,50 m en mai ou en juin. Ce pic saisonnier se situe environ 0,3 m à 0,5 m en dessous des records de 2017 et 2019.

Le CILOFSL surveille de près la situation et ajuste fréquemment les débits de sortie du lac Ontario conformément au Plan de régulation 2014.

Risques :

Les niveaux du lac Ontario influencent ceux du cours supérieur du fleuve Saint-Laurent, affectant les secteurs situés le long des rives à Maitland, Johnstown et Cardinal.

Les niveaux d'eau plus en aval dans le réseau hydrographique du Saint-Laurent devraient augmenter et rester supérieurs à la moyenne pendant plusieurs semaines.

Bien qu'aucune inondation généralisée ne soit prévue, les municipalités et les résidents doivent être conscients des niveaux d'eau plus élevés que la normale et du risque d'inondations localisées dans les zones basses.

Les résidents sont informés que des vents violents pourraient provoquer des vagues, augmentant encore davantage les niveaux d'eau.

MESURES À PRENDRE : Il est conseillé aux résidents de faire preuve d'une extrême prudence lorsqu'ils sont à proximité des rivières et des plans d'eau en raison de la montée des eaux et du sol glissant. On demande aux parents d'expliquer ces dangers à leurs enfants.

Les résidents des zones inondables ou basses, régulièrement sujettes aux inondations, doivent prendre les précautions nécessaires pour protéger leurs biens.

Veuillez vous assurer que :

- La pompe de puisard est dégagée, en bon état de fonctionnement et est munie d'un clapet anti-retour.
- Les descentes pluviales sont dégagées et leur sortie est située à au moins 3 m du logement.
- L'accès au générateur de secours portable et à la pompe se fait facilement.
- Les ponceaux des allées sont exempts de débris et que l'eau s'écoule bien.
- Les objets qui pourraient flotter au fur et à mesure que le débit augmente sont sécurisés.

Durée : La présente déclaration de risque de crue est en vigueur jusqu'au 26 mai 2026 à 17 h ou jusqu'à ce qu'une mise à jour soit publiée.

La CNS surveille les niveaux d'eau et les prévisions météorologiques dans le cadre du programme de prévision et d'alerte des crues. Des mises à jour sont transmises au fur et à mesure que les conditions évoluent.

RE: Provincial Bill 100 – Better Regional Governance Act, 2026

Please be advised that at its Regular meeting on May 6, 2026, Council of the Township of Springwater passed the following resolution:

Resolution C203-2026

Moved by: Deputy Mayor Cabral

Seconded by: Councillor Moore

Whereas Bill 100, the Better Regional Governance Act, 2026, introduced in the Legislative Assembly of Ontario, proposes significant changes to the governance structure of upper-tier regional municipalities, including the County of Simcoe; and,

Whereas the proposed legislation would authorize the Minister of Municipal Affairs and Housing to appoint the Warden of the County of Simcoe, rather than maintaining the longstanding practice of selection by County Council; and,

Whereas the County of Simcoe is comprised of 16 member municipalities, each represented at County Council, forming a governance model rooted in local representation and accountability to residents; and,

Whereas residents expect that those exercising authority over local decision-making are accountable to the communities they serve, and not appointed by or primarily aligned with the provincial government; and,

Whereas Bill 100 proposes a reduction in County Council composition and introduces the potential for provincially regulated weighted voting, creating uncertainty regarding equitable representation among member municipalities; and,

Whereas the Province has indicated its intention to extend “Strong Chair” powers to the Warden of the County of Simcoe, thereby concentrating decision-making authority in a single office; and,

Whereas such concentration of authority may alter the balance of municipal governance and reduce the role of council-based decision-making; and,

Whereas the introduction of Strong Chair powers at the upper-tier level may give rise to governance challenges where alignment between the Head of Council, Council, and the communities they serve is not maintained; and,

Whereas municipal professional associations have cautioned that such a governance model may place senior municipal staff in a difficult position that may undermine their neutrality and professionalism, and there continues uncertainty and concern among residents regarding the concentration of authority in a single office and the reduced role of councils; and,

Whereas the Township of Springwater has previously expressed opposition to the expansion of “Strong Mayor” powers and has consistently supported transparent, accountable, and locally driven governance structures that respect the role of elected councils and reflect the interests of residents.

Now Therefore Be It Resolved That:

The Council of the Township of Springwater opposes Bill 100, the Better Regional Governance Act, 2026, in its current form; and,

That Council opposes the appointment of the Warden of the County of Simcoe by the Province, and affirms that the Warden should continue to be selected through a process that ensures accountability to the residents of Simcoe County; and,

That Council opposes the extension of “Strong Chair” powers to the Warden of the County of Simcoe, given the significant shift in governance authority and its potential impacts on local democracy, council function, and municipal administration; and,

That Council expresses concern regarding the potential introduction of provincially regulated weighted voting rules, and the absence of a clearly defined framework ensuring fair and equitable representation for all member municipalities; and,

That the Government of Ontario be requested to amend Bill 100 to preserve local democratic authority, maintain council-based governance structures, and ensure that upper-tier municipal leadership remains accountable to local councils and communities; and,

That the Government of Ontario be further requested to undertake meaningful consultation with affected municipalities, including the County of Simcoe and its 16 member municipalities, prior to advancing any legislative or regulatory changes impacting municipal governance; and,

That this resolution be circulated to the Minister of Municipal Affairs and Housing, Members of Provincial Parliament, the Association of Municipalities of Ontario, the County of Simcoe, and all Ontario municipalities, for their consideration; and,

That this resolution also be shared with local media outlets to reflect community concerns and to clearly communicate the Township of Springwater's position to its residents.

Ontario's Tax Freeze: Costing Jobs, Raising Prices

Unfair property tax policies are placing a hidden tariff on consumers, driving up the cost of goods and putting immense pressure on small businesses. Local retailers, the backbone of our communities, are overtaxed, threatening jobs and economic stability across Ontario.

Who's Bearing the Hidden Consumer Tariff in Ontario?

Local Businesses, Unfairly Taxed

Unfair taxation is placing a hidden burden on local communities across Ontario. Independent businesses are overtaxed, driving up prices for consumers and putting jobs and livelihoods at risk. Residents are paying the price while trying to support their local retailers.

Residents want to support local businesses but are facing higher prices due to an outdated tax system that favors large properties. This province-wide issue is putting undue pressure on communities and demands immediate action.

Retail and Office Tenants Overpay While Others Get a Pass

Ontario's outdated assessed values are putting jobs and local businesses at risk. Retail and office tenants are taxed based on inflated values, while other businesses get a pass—leaving everyday residents to make up the difference through higher prices.

It's time to reassess and restore fairness.

Property Taxes Out of Sync with Reality

Ontario's property tax system is out of sync with market reality. Retail and office properties have declined in value, yet remain overtaxed, while other businesses—whose values have tripled—are undertaxed.

Without reassessment, struggling retail and office sectors face rising costs, lower occupancy, and mounting pressure.

The Only Province Without Reassessment Since the Pandemic

Ontario is the only province that hasn't reassessed property values since the pandemic. As of January 1st 2025, Ontario taxes were based on values that are 108 months in the past, while in the rest of Canada assessed values are 6-24 months in the past.

Regular reassessments give businesses the stability to plan and invest. Without it, struggling sectors like retail and office face uncertainty and discouraging costs.

Canada: A Call to Return to Property Tax Reassessment Cycle**

Date: May 8, 2026

Moved by: Warden Jennifer Murphy, County of Renfrew

Seconded by: Warden Robert Mullin, County of Hastings

WHEREAS the Eastern Ontario Wardens' Caucus (EOWC) serves over 1.1 million residents across 13 upper-tier and single-tier municipalities, encompassing a total of 103 municipalities in Ontario;

AND WHEREAS municipalities in Ontario are currently required to calculate property taxes based on property valuations from 2016, over a decade ago;

AND WHEREAS all other provinces in Canada have continued regular reassessment cycles, resulting in properties being reassessed multiple times since 2016, making Ontario the most outdated in Canada;

AND WHEREAS the prolonged pause in the reassessment cycle has created significant distortions in assessed values, resulting in inequities among property classes; and

AND WHEREAS outdated assessments negatively impact investment decisions, economic competitiveness, municipal planning, and disproportionately affect independent small businesses; and

AND WHEREAS the continued pause on property tax reassessment in Ontario creates uncertainty for municipalities, property owners, and investors regarding future tax liabilities;

AND WHEREAS a current and predictable assessment system is essential to supporting strong communities, maintaining fairness in taxation, and encouraging economic investment consistent with the Ontario government's objective of being "Open for Business";

AND WHEREAS the lack of clarity regarding the timing of the next reassessment is contributing to delayed or deferred investment decisions, thereby impacting economic competitiveness across the province;

AND WHEREAS municipal governments, particularly in rural and small-urban communities, rely on a stable and updated assessment system to address financial pressures including inflation, rising labour costs, and increasing service demands;

NOW THEREFORE BE IT RESOLVED that the EOWC formally requests that the Government of Ontario commit to a clear and prompt return to the property tax reassessment cycle;

AND BE IT FURTHER RESOLVED THAT the Province provide a defined timeline and transparent plan for implementing future reassessments on a regular and predictable basis;

AND BE IT FURTHER RESOLVED THAT the Government of Ontario work in coordination with the Municipal Property Assessment Corporation (MPAC) to ensure properties are reassessed in an accurate and timely manner;

AND BE IT FURTHER RESOLVED THAT a copy of this resolution be circulated to the Honourable Doug Ford, Premier of Ontario; the Honourable Peter Bethlenfalvy, Minister of Finance; EOWC Members of Provincial Parliament; the Association of Municipalities of Ontario; the Rural Ontario Municipal Association; the Municipal Property Assessment Corporation; the Ontario Big City Mayors; the Western Ontario Wardens' Caucus; the Mayors and Regional Chairs of Ontario; the Federation of Northern Ontario Municipalities; and all EOWC municipalities."

Regular Council Meeting Resolution Form

Date: February 17, 2026 No: RESOLUTION - 56-2026
Moved by Councillor Kevin Rosien Disposition: CARRIED
Seconded by Deputy Mayor Scott Brum Item No: 14.2

Description: Ontario Heritage Organization Development Grant Advocacy

RESOLUTION:

WHEREAS Ontario municipalities are legislated to preserve records of enduring and historical value, and community archives play a critical role in fulfilling this responsibility, particularly in rural and smaller municipalities; and

WHEREAS The Heritage Organization Development Grant (HODG) is the only provincial operating grant available to grassroots, non-profit heritage organizations, including community archives and historical societies across Ontario; and

WHEREAS The maximum annual HODG grant of \$1,545 per organization has remained effectively unchanged for more than 15 years, resulting in a significant erosion of its real value due to inflation, such that its current purchasing power is approximately two-thirds of what it was in 2010; and

WHEREAS Rising operating costs related to insurance, utilities, records preservation, digitization, accessibility, and volunteer coordination have increased financial pressure on heritage organizations, often requiring municipalities to absorb additional costs to ensure continuity of service; and

WHEREAS Strengthening HODG would represent a modest but high-impact provincial investment that would help stabilize community archives, reduce pressure on municipal budgets, and safeguard Ontario's public records and local heritage for future generations;

NOW THEREFORE BE IT RESOLVED THAT Council formally support a review and modernization of the Heritage Organization Development Grant, including restoring its real purchasing power through inflationary adjustment and exploring options for increased or multi-year operating stability; and

BE IT FURTHER RESOLVED THAT This resolution be forwarded to the Minister of Tourism, Culture and Gaming, local Members of Provincial Parliament, AMO, and Ontario municipalities for consideration and support.

16.1 Member Motion - Councillor Thompson - Integrated Living and Participation Model for Adults with Developmental Disabilities

Moved by: Councillor Thompson

Seconded by: Councillor Cui

Whereas individuals with autism and other developmental disabilities often experience a significant reduction in structured supports and programming upon reaching adulthood, particularly after the age of 21; and

Whereas many of these individuals remain reliant on aging parents or caregivers, creating growing concern among families regarding long-term housing, care, and quality of life; and

Whereas the Province of Ontario has, over time, transitioned away from large institutional models of care toward more community-based and inclusive approaches for individuals with developmental disabilities; and

Whereas while these changes have improved opportunities for inclusion and independence, the current system of supports is often delivered across multiple programs and providers and may not fully address the long-term need for integrated living environments that combine housing, supports, and meaningful daily participation; and

Whereas there is an increasing need for innovative, sustainable, and inclusive models of care that support independence, dignity, and community integration for adults with developmental disabilities; and

Whereas opportunities may exist to explore models that provide safe and supportive living environments for adults with developmental disabilities while also offering structured, voluntary, and supported participation in day-to-day activities that foster a sense of purpose, skill development, and social connection; and

Whereas such models, if thoughtfully designed, could complement existing care environments and contribute positively to the overall well-being of both participants and residents; and

Whereas the Regional Municipality of York is responsible for a range of human services including housing, community services, and the operation of long-term care homes, and is therefore well-positioned to explore integrated and interdisciplinary approaches to care.

Therefore, be it resolved that the Council of the City of Richmond Hill request that the Regional Municipality of York consider exploring innovative models of housing and support for adults with developmental disabilities, including the potential for an "Integrated Living and Participation Model"; and

That such consideration includes opportunities for co-location or partnership with existing regional services, including long-term care and community housing, where appropriate; and

That this model emphasizes voluntary, supported, and meaningful participation in activities that enhance quality of life, social inclusion, and community engagement, without displacing existing workforce roles; and

LOWER OTTAWA RIVER FLOOD MESSAGE

Arnprior to Hawkesbury

SHORELINE CONDITIONS STATEMENT FLOOD OUTLOOK – Lower Ottawa River

Flood Outlook

May 19th, 2026 – This Flood Outlook statement is an update to the Flood Watch issued for areas along the Lower Ottawa River (Arnprior to Hawkesbury) on May 4th, 2026.

Water levels and flows from Arnprior to Hawkesbury have stabilized and are expected to continue declining. Spring runoff remains elevated in the northern part of the basin; however, conditions have generally stabilized. As runoff from the northern basin continues to move downstream, water levels will remain elevated along the main stem of the river.

From Arnprior to Hawkesbury, minor flood levels are expected to persist in some flood-prone areas.

The minor flood level is defined as the level at which parts of some streets, lawns and parks are beginning to flood, with no or few houses/buildings being affected.

The major flood level is defined as the level at which one or several streets are beginning to flood, with several houses/buildings or neighbourhoods being affected.

Water levels have receded since April 22 and are expected to continue their decline. Minor flooding of low-lying roadways, parkland, and adjacent properties may persist for the remainder of the freshet for the Ottawa River basin.

Residents in flood-prone areas are encouraged to closely follow changing conditions and to take necessary measures, such as:

- Sump pump is clear, in good working condition and has a backwater valve on it.
- Easy access to portable backup generator and pump.
- Downspouts are clear and the outlet is at least 3 m from the dwelling.
- Driveway culverts are clear of debris and drain well.
- Securing items that might float away as flows increase.

Residents are advised to stay away from watercourses where flows are high and where banks might be unstable. Parents are encouraged to explain dangers to children and provide appropriate supervision around all waterbodies.

The **Mississippi Valley, Rideau Valley, and South Nation Conservation Authorities** monitor water levels and weather forecasts with the **Ministry of Natural Resources** as part of the Flood Forecasting and Warning Program. **Updates are provided as conditions change.**

The **Ottawa River Regulating Committee** will be reassessing forecast conditions and providing hydrological condition updates on its website daily at www.ottawariver.ca/forecasts/.

MESSAGE DE CRUE POUR LE COURS INFÉRIEUR DE LA RIVIÈRE DES OUTAOUAIS

Arnprior à Hawkesbury

COMMUNIQUÉ SUR LES CONDITIONS DES RIVES RISQUE DE CRUE – Cours inférieur de la rivière des Outaouais

Risque de crue

19 mai 2026 – Le présent bulletin de risque de crue fait suite à la veille de crue émise le 4 mai 2026 pour les zones situées le long du cours inférieur de la rivière des Outaouais (d'Arnprior à Hawkesbury)

Les niveaux d'eau et les débits entre Arnprior et Hawkesbury se sont stabilisés et devraient continuer à baisser. Le ruissellement printanier reste élevé dans la partie nord du bassin ; toutefois, la situation s'est généralement stabilisée. À mesure que le ruissellement provenant du nord du bassin continue de s'écouler vers l'aval, les niveaux d'eau resteront élevés le long du cours principal de la rivière.

Entre Arnprior et Hawkesbury, des niveaux d'inondation mineurs devraient persister dans certaines zones inondables.

Le niveau de crue mineure correspond au moment où certaines rues, pelouses et parcs commencent à être inondés, avec peu ou pas de répercussions sur les habitations ou les bâtiments.

Le niveau de crue majeure correspond au moment où une ou plusieurs rues sont inondées, avec des répercussions sur plusieurs habitations, bâtiments ou quartiers.

Les niveaux d'eau ont baissé depuis le 22 avril et devraient continuer à baisser jusqu'à la semaine prochaine. Des inondations mineures des routes situées en contrebas, des parcs, et des propriétés adjacentes pourraient persister tout au long de cette semaine.

Les résidents des zones sujettes aux inondations sont invités à suivre de près l'évolution des conditions et à prendre les mesures nécessaires, notamment :

- S'assurer que la pompe de puisard est dégagée, fonctionnelle et munie d'un clapet antiretour
- Prévoir un accès rapide à une génératrice portative et à une pompe de secours
- Vérifier que les descentes pluviales sont dégagées et rejettent l'eau à au moins 3 m de la résidence
- Dégager les ponceaux d'entrée de cour et assurer un bon écoulement
- Sécuriser les objets susceptibles d'être emportés par la montée des eaux

Il est recommandé d'éviter les cours d'eau où les débits sont élevés et les berges instables. Les parents doivent sensibiliser les enfants aux dangers et assurer une surveillance adéquate près de tous les plans d'eau.

Les offices de protection de la nature des rivières Mississippi, Rideau et Nation Sud surveillent les conditions en collaboration avec le **ministère des Richesses naturelles** dans le cadre du Programme de prévision des crues et d'avertissement du public. **Des mises à jour sont diffusées au besoin.**

La Commission de planification de la régularisation de la rivière des Outaouais réévaluera les conditions prévues et publiera des mises à jour quotidiennes des conditions hydrologiques sur son site Web à l'adresse suivante : rivieredesoutaouais.ca/previsions. The Raisin Region Conservation Authority (RRCA) Board of Directors consists of eight representatives from the RRCA's five member municipalities: City of Cornwall and Townships of North Glengarry, South Glengarry, South Stormont and North Stormont.

Following every Board meeting, councils, CAOs and clerks of the RRCA's five member municipalities are sent meeting highlights and the date of the next meeting. The RRCA Board meets monthly (except for July, August, and December, unless a special meeting is called).

May 7, 2026 RRCA Board of Directors Meeting Highlights:

- Approved minutes from the April 2, 2026 meeting can be found at <http://www.rrca.on.ca/Governance>.

- Board approved the 2025 RRCA Annual Report, which will be circulated to RRCA's member municipalities and other partners.

Conservation Authority Consolidation Update:

- Following provincial public consultation, proposed amendments to the *Conservation Authorities Act* received Royal Assent in April 2026 to consolidate Ontario's 36 conservation authorities (CAs) into nine regional authorities.
- The RRCA will be consolidated with three other conservation authorities to form the St. Lawrence River Regional Conservation Authority (SLRRCA), bringing together the RRCA, South Nation Conservation, the Rideau Valley Conservation Authority, and the Mississippi Valley Conservation Authority.
- The transition to the regional CA model is scheduled for February 1, 2027 or a later date prescribed by regulation.
- Regional Transition Committees, guided by the Ontario Provincial Conservation Agency (OPCA), will lead the merger, with members appointed by the existing CA Board of Directors.
- The RRCA has established a Working Group formed of Board and staff members to: review governance requirements; provide input to communication plans; review levy and cost-sharing arrangements; identify opportunities for beneficial regional service delivery; and liaise with the province on transition planning.
- The new Regional CAs will replace the existing CAs as legal entities to avoid disruption to current municipal agreements, partnerships, and operations and will become the employer of existing CA staff.
- Regional CAs will continue to be municipally governed organizations, with Board members appointed by the upper-tier and single-tier municipalities and will continue to rely on the deep local expertise, knowledge and relationships CAs have built through the establishment of Watershed Councils.
- The RRCA would be pleased to meet with your municipality to discuss further. Please connect with Alison McDonald, RRCA General Manager, at (613) 938-3611 ext. 222 or Alison.McDonald@rrca.on.ca.
