Making the Most of Our Recreation Facilities

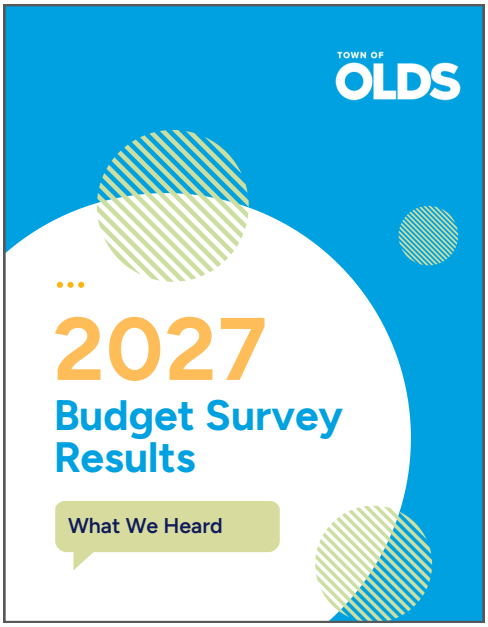

The Town of Olds is reviewing how it manages its sports fields and recreation facilities to make the best use of available spaces and create more opportunities for residents to participate in sports, particularly children and youth.

Our goal is to keep facilities active, support local sport and make the most of the public resources available to our community.

2027 Budget Survey: What We Heard

Thank you to the **329** people who shared their views in the Town's 2027 Budget Survey.

The results revealed some clear priorities and some very different opinions. Roads and water infrastructure ranked high, while questions about snow clearing, taxes and Uptowne revitalization showed that residents don't always agree on where money should go or what services should cost.

These differences highlight the choices involved in building a municipal budget. Council must balance community needs, service levels and available funding.

Survey feedback is one part of the information Council will consider as it develops the 2027 Budget.

See what your neighbours had to say. See the full *What We Heard* report and all the results and comments under Plans & Reports on olds.ca
