

Heritage Oshawa Inventory of City of Oshawa Heritage Properties

Updated August 2025

What are 'Inventory' Properties?

The Heritage Oshawa Inventory identifies properties of potential cultural heritage value or interest within the City of Oshawa. The Inventory currently includes over 500 properties. All properties within the Inventory have been deemed potentially significant by Heritage Oshawa in terms of their historical significance within the City of Oshawa.

The following is a listing of all 'Inventory' properties sorted alphabetically by street name. Entries are further sorted by street direction (i.e. "King Street East" properties are before "King Street West" properties).

Please note that properties within the Inventory were previously identified as either 'Class A' or 'Class B'. 'Class A' properties were determined to have the highest potential for designation, while 'Class B' properties were determined to have good potential for designation.
