Town of Perth Statement – Perth & District Community Centre Incident

The Town of Perth is aware of an incident that occurred this evening, November 9, at the Perth & District Community Centre involving an ice resurfacing machine that struck and damaged the arena boards following a reported equipment malfunction.

Thankfully, no injuries were reported.

As a precaution, the Community Centre is temporarily closed until the damaged boards have been repaired, the ice resurfacing machine has undergone a mechanical inspection, and the facility has been deemed safe to reopen.

Town staff are contacting affected user groups and facility renters directly regarding the closure and its impact on scheduled activities.

The Town is reviewing the circumstances surrounding the incident, including the reported equipment malfunction, equipment operation and established safety procedures.

The safety of our facility users and staff remains our highest priority. We recognize the concern this incident may cause and are committed to taking the necessary steps to ensure a safe return to operations.

We appreciate the community's patience and understanding and will provide updates regarding the reopening of the arena as more information becomes available.
