Perth & District Community Centre to Reopen Following Repairs and Safety Inspections

Perth, Ontario – The Town of Perth is pleased to advise that the Perth & District Community Centre is scheduled to reopen on Saturday, November 14, following repairs and safety inspections related to an incident involving an ice resurfacing machine on November 9.

The incident resulted in damage to the arena boards, and the facility was temporarily closed as a precaution. No injuries were reported.

Necessary repairs and safety inspections have been completed in preparation for reopening. The ice resurfacing equipment has also undergone a mechanical assessment and has been cleared to return to service. As additional precautionary measures, the Town has reviewed its ice resurfacing procedures and undertaken additional training.

The Town's investigation into the circumstances surrounding the incident remains ongoing, and no final determination regarding the cause has been made.

"We're pleased to be reopening the Community Centre, just in time for the PLMHA hockey tournament," said Cathy McNally, Director of Community Services. "Our work doesn't end here. The safety of our staff and facility users remains our highest priority, and we're committed to completing a thorough review of the incident, understanding what happened, and taking any necessary steps to strengthen our operations."

The Town appreciates the patience and understanding of facility users and the community throughout the closure. Regular programming and facility rentals will resume following the hockey tournament on Sunday, November 15.
