

THANK YOU!

For everyone's cooperation and patience during the significant weather event on February 7th.

A special thank you goes out to Plympton-Wyoming Volunteer Firefighters, Plympton-Wyoming Public Works Staff, Plympton-Wyoming Agricultural Society, Huron Shores Optimist, Ontario Provincial Police, St. Clair Township Firefighters, Town of Petrolia Public Works and Wyoming Tree Service for all your assistance.

Additionally, thank you to those who stayed home and avoided unnecessary travel, giving road crews and emergency services space to work.

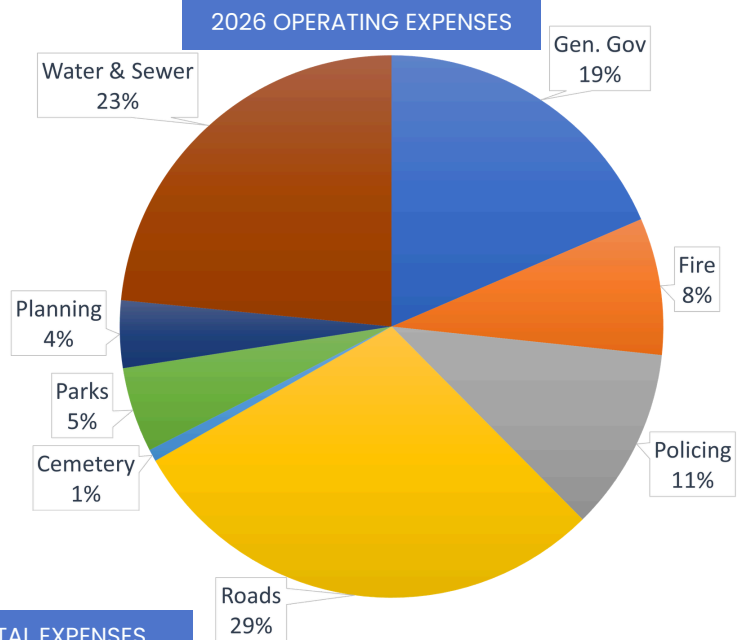

Wyoming Public Cemetery Memorial Service in honour of Decoration Day will be held Sunday, June 14th, 2026

After the snow melts, you may notice damage to your lawn from plow blades. Staff will repair damaged locations starting mid-April when the weather is appropriate for sod repair. To have your property put on the plow damage sod repair list, please call or email Chandra Sisson in Public Works at 519-845-3939 or csisson@plympton-wyoming.ca

DID YOU KNOW that our rural AND urban areas rely on a network of Municipal Drains to remove stormwater? These Drains—which can be open ditches or closed pipes—are crucial infrastructure that protect property, roads, and farmland.

- **Keep it Clear:** Please do not place brush, wood, or debris near or in drainage ditches. These can block flow, causing water to back up and flood adjacent properties.
- **Protection:** Never dispose of trash, chemicals, or farm waste into Drains, as they often lead directly to local rivers and lakes.
- **Maintenance:** Property owners within a watershed may be assessed for the cost of maintaining these systems, which keeps them working effectively.

Municipal Drains are an integral part of the landscape in Plympton-Wyoming. For more information, visit the drainage portion of our [website](http://www.plympton-wyoming.ca)! Or contact our Drainage Superintendent, Ryan Tamming, with any inquiries or repair requests at

519-845-3939 or rtamming@plympton-wyoming.ca.

Environment and Climate Change Canada has launched colour-coded weather alerts to help Canadians quickly understand their level of risk during severe weather.

What do the colours mean?

Yellow:

Hazardous
Impacts are moderate, localized, and/or short-term.
Most common

Orange:

Severe
Impacts are major and/or widespread.
Uncommon

Red:

Very dangerous
Impacts are extreme, extensive, and prolonged.
Rare

Remember: know the colour, know the risk.

2026 SWIM REGISTRATION

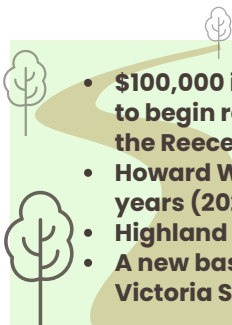

OPENS EARLY JUNE – LOOK FOR UPDATES ON THE POOL FACEBOOK PAGE. 2026 RATES AND MORE INFORMATION CAN BE FOUND HERE: www.plympton-wyoming.com/pool

POOL UPGRADES

Built in 1972, the Wyoming Pool has long served the community and remains a key municipal recreational facility. In the spring of 2025, the pool began experiencing several operational challenges. Following staff recommendations, Council approved a full rehabilitation of the facility and awarded the project to Hollandia Pools & Spas, who began work in September 2025, with plans for completion in spring 2026. The rehabilitation will address all known structural, mechanical, and operational issues, bring the facility into compliance with Ministry of Health Class "A" standards, and extend the pool's service life by an estimated 10–15 years.

2026 PARK PROJECTS

- \$100,000 is set aside to begin reconstruction of the Reece's Corner Trail, including widening the path.
- Howard Watson Trail extension into Camlachie will be done over two years (2026 and 2027).
- Highland Glen Parking Lot will be expanded.
- A new basketball court is proposed at Kings Square Park (3511 Victoria St.) in partnership with the Huron Shores Optimist.
