Canadian Navigable Waters Act

Quinte Conservation hereby gives notice that a

submission has been added to the Navigable Waters Registry pursuant to the *Canadian Navigable Waters Act* for public comment described herein and its site and plans.

Pursuant to paragraph 10(1)(b) of the said Act,

Quinte Conservation has deposited with the Minister of Transport, on the on-line Common Project Search Registry (http://cps.canada.ca/) and under registry number 2026-418072, a description of the following work, its site and plans:

Quinte Conservation is planning to install a safety boom upstream of the Quinte Conservation owned Milford Dam. Milford Dam is a 4.5m high concrete weir which would be unsafe to navigate over. The proposed boom will act as a physical barrier and visual warning to keep public and watercraft away from the weir. The anchors will be placed above the high-water mark on either shore and consist of a poured in place concrete block. The boom itself will be angled between the bridge piers to allow for self retrieval on the north shore. The boom will be left in year-round.

in, on, over, under, through or

across Black Creek at Prince Edward County under County Road 17

Comments regarding the effect of this work on marine navigation can be sent through the Common Project Search site mentioned above under the Comment section (search by the above referenced number) or if you do not have access to the internet, by sending your comments directly to:
