DOG LICENSE ADMINISTRATION CHANGING

Starting in 2024, the Town of Shelburne will be making it easier to purchase or renew dog tags!

The Town of Shelburne is delighted to partner with DocuPet, a world-leading pet profile, lost pet, and licensing platform. Pet owners will now receive a complimentary 24/7 lost pet service along with colourful and unique designer ID tags linked to a secure online profile when they license their dogs.

Residents will have the ability to order personalized tags online! Additionally the Town will update the licensing window from a calendar year approach to a 365-day model. Previously, dog licenses expired annually on December 31st, but through the new partnership with DocuPet, licenses are now valid for 365 days after purchase. This means that no matter what time of year residents purchase a dog's license, it will be valid for 365 days.

Stay tuned for more updates on the Town's social media and news articles visit **shelburne.ca**

WINTER REMINDERS

The Town would like to remind residents and visitors of the following winter maintenance guidelines:

- Do not shovel, plow or blow snow on roads or sidewalks. This causes unsafe road conditions and is also against the law. If you have cleared your driveway, but Snowplows have not cleared your street, be prepared for a windrow at the bottom of your driveway.
- Do not place your waste bins on snowbanks, icy surfaces, or on the road. Instead shovel a part of the curb area when possible to make room for waste bins, or place waste bins at the end of your driveway.
- Winter Parking restrictions are in effect. No vehicles are to be parked on any roadway between 12:00 a.m. and 8:00 a.m. every day.
- Stay safe and stay off Storm Water Management Ponds, they are not for recreation. Do not toboggan or skate on Storm Water Management Ponds.
- Always drive according to road and weather conditions. Roads and sidewalks that haven't been cleared may be slippery, please take extra time and caution when travelling.

The Town is committed to keeping all roads and sidewalks safe during the winter months and completes winter maintenance in accordance with the Ontario Minimum Maintenance Standards.

Staff make every effort to clear roads and sidewalks as quickly and effectively as possible and ask that residents please allow 24 hours after a snowstorm to make any clearing requests.

FIRE HYDRANTS – KEEP THEM CLEAR

Please help keep your community safe and clear snow from fire hydrants and catch basins during the winter season.

In an emergency, every second counts. By clearing snow away from fire hydrants, they are visible and accessible to emergency services personnel.

Clearing snow away from catch basins will help to prevent street flooding and icy road conditions.

PREVENT FROZEN PIPES

Due to the lower temperatures, please be aware that the pipes in your home may freeze if they are unprotected. Here are some steps to avoid frozen pipes:

- Ensure your indoor air temperature is kept above 8C in areas that contain water pipes and especially near the meter.
- Seal air leaks in your home and garage, especially in areas where pipes run.
- If there are water supply lines in the garage, keep outside garage doors closed.
- Insulate all outdoor water pipes with specially designed outdoor foam pipe covers available at building supply or home improvement stores.
- Shut off and drainpipes leading to outside faucets.
- For meters or water pipes located inside a cabinet, leave the cabinet doors open to allow warm air to reach them.
- If you're going away for an extended period, consider turning off the main water shut off valve and draining your water system out through a sink or tap in the lowest level of your home. Consider having someone check on your home regularly to make sure the heat is still on and that your pipes haven't burst.
- Call the Town Water Department if you have any questions or need assistance: 519-925-2600 x 231 or after hours 519-938-0124.
