Cc Southgate Planning <planning@southgate.ca>

Hi Victoria,

This email is further to the email of below regarding the above referenced file for the property known as: 612393 Southgate Sideroad 61.

The subject property does not contain any floodplains, watercourses, shorelines, wetlands, valley slopes, or other natural hazard features of interest to SVCA. As such, it is the opinion of SVCA staff that the application is consistent with the Natural Hazard policies of the Provincial Policy Statement (PPS, 2024). SVCA staff note that current mapping shows a small area along the western property boundary to be within the SVCA Approximate Screening Area. However, SVCA is updating our mapping for this property to better reflect site conditions. Therefore, the property will not be in a SVCA Approximate Screening Area, and the property will not be subject to SVCA regulations, and therefore, a permit from the SVCA is not required for development activities related to this application.

Furthermore, the subject property appears to SVCA staff to not be located within an area that is subject to the local Drinking Water Source Protection Plan.

I trust that this is helpful.
Any questions, please ask.

Kind regards,
Mike
