The Proposal

22. Describe the nature and extent of the relief applied for and the proposed use of the subject lands.

The applicant is applying for a consent to sever that would create a new 20.6ha farm lot, from the existing farm. This will leave the applicant with a retained 20.6ha lot to continue to be used for agricultural purposes. The severed 20.6ha lot will be restrictively zoned so that it will remain to be used to agricultural purposes only. The severed lot is considered quality farmland and it is intended to remain in agricultural production.

23. Describe the reasons for the proposed amendment(s).

The severed and retained lots require relief from lot area requirements.

The severed lot will also be zoned to prohibit residential development.

24. Describe the timing of the proposed development, including phasing.

Once the application for consent has been successfully completed and the new lot has been registered it will be sold to a bona fide farmer, who will continue to farm the land.

25. Additional Supporting Documents

List any supporting documents: (e.g. Environmental Impact Study, Hydrologic Report, Traffic Study, Market Area Study, Aggregate License Report, Storm Water Management Report)

Based on the lot sizes being under the 40ha size requirement, the County of Grey requested the completion of an Agricultural Report to support the application for consent.

Purpose: a zoning by-law amendment is required to change a zone symbol on a property to permit expanded or different land uses on a specific property. A zoning by-law amendment may also be requested to change a zone provision (setback or similar regulation) or general provision.

Process: Discuss your proposal with the municipal planning department prior to submitting your application. Make your application to the planning department along with the required fee. A planning staff report will be prepared and a public meeting will be set. The applicant will be advised of the time and date of this meeting and invited to make representation at this time in order to explain why the zoning amendment request is being made.

You can expect a decision on your application within 150 days. This time is used to review the application, set up a public meeting, post the required public notice, draft a zoning by-law amendment and ensure that all other required documentation is in order.

At least 20 days prior to the public meeting, notice of the public meeting is either sent to every assessed property within 120 metres (400 feet) of the subject property or a notice is placed in the appropriate local newspaper. The applicant or a representative must attend the public meeting to explain why the zoning amendment is required to members of the Council and the public, as well as answer any questions that may arise.

A site plan and agreement may be required to be negotiated prior to any further proceedings of the rezoning process. Following the public meeting and if Council is satisfied with the application, an amending by-law will be considered by Council. Should the by-law be passed, a notice of passing is prepared and sent to everyone on the first mailing list or published in the newspaper. A 20 day appeal period is required to be included in this notice to allow anyone to appeal the by-law to the Ontario Municipal Board.

Should your application not be approved by Council, you also have the right to appeal to the Local Planning Appeals Tribunal within the same 20 day appeal period. More information is available by contacting the municipal planning department or on the Web at: <http://elto.gov.on.ca/news/local-planning-appeal-tribunal/>

If the application is approved and no appeal is filed, a notice of no appeal is prepared and sent to the applicant at which time the process is now completed. A building permit would not be available for any works associated with the by-law until the appeal period has passed and if no appeals were filed.
