
South and North Glengarry Recognized in Information and Privacy Commissioner Annual Transparency Showcase

SOUTH GLENGARRY / NORTH GLENGARRY, ON, September 29, 2026 – The Townships of South Glengarry and North Glengarry, in partnership with Glengarry TV, are pleased to announce that the “Northern and Southern Perspectives” video series has been selected for inclusion in the Information and Privacy Commissioner of Ontario’s (IPC) Annual Transparency Showcase, which highlights innovative approaches to government transparency and access to information.

The Transparency Showcase is a virtual gallery featuring creative projects from public institutions across Ontario that advance open data, government transparency, and access to government information. The IPC’s Transparency Challenge provides an opportunity for municipalities, provincial ministries, schools, universities, police services, and other public institutions to share innovative approaches that help Ontarians better understand the work of government.

The Glengarry exhibit, titled, “Beyond the Minutes”, highlights the partnership between both municipalities and local media business Glengarry TV to provide residents with another way to understand the discussions and decisions made at Council meetings.

Through professionally produced videos, Glengarry TV’s Alain Lauzon interviews each municipality’s mayor following Council meetings, providing an accessible look at key decisions and emerging local issues.

Municipal agendas and minutes remain an important part of the public record, but they can be lengthy, technical, and difficult for some residents to navigate. The Perspectives series complements those formal records by providing additional context and explaining municipal decisions in a familiar and accessible format.

The 2026 IPC Transparency Showcase launches online on Monday, September 28, 2026. To view the virtual Transparency Showcase and the Glengarry exhibit, visit <https://transparencyshowcase.ipc.on.ca/en/>.
