GENERAL NOTES:

The designer and Kona Carpentry Corp. assume zero liability for any required engineering or design flaws. The "general contractor" is to seek engineering design/approvals when and where necessary. The builder must ensure all spans/loads are acceptable under part 9 of the BC BC. The builder shall verify that site conditions are consistent with plan information prior to work commencing. Work that is not specifically detailed shall be constructed with the same quality as similar work that is detailed on the plans. All work shall be done in accordance with both international and local building codes and to meet expectations and requirements of local municipality of authority.

Written dimensions and specific notes shall take precedence over scaled dimensions and general notes. The engineer/designer shall be consulted for clarification if site conditions are encountered that are different than shown/expected. If discrepancies are found in the plans or notes, or if a question arises over the intent of the plans or notes, the contractor shall verify and is responsible for all dimensions including rough openings.

Please see additional notes called out in other sheets as required.

BUILDING PERFORMANCE:

Heat loss calculations shall comply with the requirements of regional and local codes. See calculations. Porches, decks, foundations, fireplace enclosures and garage areas not included in living area. All exhaust fans to be vented directly from the exterior. All penetrations of the building envelope shall be properly flashed, caulked and/or insulated.
