WATER INTERRUPTION NOTICE

October 13th, 2026

Jormat Contracting Inc. will be complete a water connection to the arena in your area. In order to complete this work, it will be necessary to shut down the water supply system. This shut down will temporarily interrupt your water supply. Please ensure you have an adequate supply of water available during this period.

The watermain repair will be completed by Jormat Contracting. Your water will be turned off from 9:00 a.m. to 5:00 p.m. on 13th October 2026, weather permitting.

When your water is reinstated, it is important to turn on a **cold water tap only** and let it run for approximately five minutes. This will allow any sediment to be cleared that might have accumulated in your water service. This will also prevent any sediment from entering the hot water system.

Please note that the water supply may be reinstated before the time mentioned above. Jormat Contracting's staff will notify you if any unforeseen circumstances occur that would require rescheduling.

If you have any further question regarding this matter, or encounter any water related problems during this period please contact the following staff members from Jormat Contracting.

Matt Clancy
Supervisor

Telephone: 905-259-1174
e-mail: matt@jormat.ca
