

Public Notice

Vermilion Provincial Park

FireSmart Brush Removal

Starting October 2026, Alberta Parks will conduct FireSmart activity to reduce the risk of wildfire where residential areas border Vermilion Provincial Park.

Crews will be clearing dead vegetation, thinning the understory, pruning, and mulching in the area highlighted in blue (north of 51 Ave). All work will be within the Park Boundaries.

Neighbours may notice noise and activity during business hours. Please avoid the area while crews are present. Thank you for your cooperation.
